An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Daniel R. Evans, Ph.D. on 5/16/05 and 6/14/05.

The application has been amended as follows:

Claim 2, line 3, cancel "selecting or";

Claim 2, line 6, cancel "selecting or".

Claim 4, line 3, cancel "a silica" and insert "the silica"

Claim 9, line 2, cancel "one".

The last new claim of the application, line 1, cancel the identifier "Claim 13" and substitute in its place --Claim 15--.

The following is an examiner's statement of reasons for allowance:

The claimed invention is novel over the prior art of record because said art fails to appreciate the method of evaluating the quality of abrasive grains which is based on the silica adsorption rate and includes all of the method steps according to claim 1. With respect to the method of polishing a glass, these claims include all of the limitations of claim 1, defined above, and therefore the prior art fails to appreciate this method for the same reasons. With respect to the abrasive, the prior art of record fails to appreciate a cerium oxide based abrasive having a silica adsorption rate as defined by the claims. The specification on page 21+, as well as the

examples, demonstrates criticality for this rate, as defined by applicants remarks which are incorporated herein by reference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
